MAKING MONEY AT THE CARSON MINT.

Superintendent Crawford has sent us a statement of the coinage executed at the Carson Mint for the past month, which compares as follows with the same month last year:

December. 1877 \$181,450 3,000 105,000 16,000 \$350,480

A larger amount would have been executed if the supply of fine silver had not been so small. The coinage executed during the year has been as

from 1870 to 1877 amounted to 31,-315,406, while the expenditures dur ing that period were \$1,519,332, leaving the excess of expenditures over receipts \$200,926. The Mint has, therefore, cost the Government but about \$25,000 per annum during the gardly appropriations from year to year have somewhat embarrassed the operations of the Mint. Should silver be remonetized, the increase in silver coinage which must follow will compel a corresponding increase in the operative force and machinery for both have heretofore worked to their fullest capacity. This, we trust, will not escape the attention of Congress.—S. F. Bulletin, Dec. 30.

THE LUMBER BUSINESS IN MAINE Maine, once the great lumbering State of the Union, now stands sixth on the list, and the business seem fast decaying, on account of the wasting away of the forests and the overcrowded condition of the trade The cut of logs on the Penebscot river decreases every year, and the bulk of the production hereafter will come from the Kenebec, as the streams emptying into Moosehead 1 ke will keep up the supply for a ong time. But the business will probably never be as remunerative as it has been, for the competition among Western lumbermen has thrown large quantities of lumber upon the Boston and New York markets at a slight advance on the cost at the booms. NO single disease has entailed more suffering or bastened the breaking up of the constitution than Laterila. The sense of smell, of taste, of sight, of hearing, the human voice, the mind, one or more and sometimes all yield to its destructive infinence. The poison it distributes throughout the system at take every vital force, and breaks up the most robust of constitutions. Ignored because but little understood by most physicians, importantly assailed by quacks and charisma, those suffering from it have little hope to be relieved of it this side of the grave. It is time, then, that the popular treatment of this terrible disease by remedies within the reach of all passed into hands at once competent and frustworthy. The new and hitherto untried method adopted by Dr. Sanford in the proparation of his kandal Cure has won my hearty approval. Delieve it likely to succeed when all the usual remedies fall, because it strikes at the root of the disease, viz., the calling do blook, while it heals the disease, viz., the calling do blook, while the heals the disease, and unless the vital forces are too far exhausted, must, in the great major it of dasses, check accure.

One by one the ancient landmarks of London are being removed. Newgate Prison, so famous in story and in the criminal records of England, seems destined to follow Temple Bar into oblivion. The London papers are filled with remonstrances against the selection of the Thames embankment as a site for the extension of the new postoffice. One of the schemes which is favored proposes the removal of the Newgate Prison. which is generally condemned as a useless monument of crime, and a national disgrace, and the erection of a handsome postoffice on the site.

Another Thieving Dadge.

The Central Pacific Railroad Co. has gotten unto itself a notorious name for its thievery and nuscrupulons actions. Discrimination is one of its common traits; but we have now to add another item to the long list of outrages this people has suffered at its hands. It has so complately bought the California Legis lature as to have a bill passed allowing the company to charge \$1.25 per cord "stumpage" on all wood cut on railroad land. Armed with this law they slap on the extra \$1.25 before they move a stick of wood. The result is that wood will have to be marked that much higher because of the insatiate greed of this avarieious leech. An oppressed people can stand considerable, but when the

limit is reached woe be to the offend

A Business Proposition. We do not think there is one propoerty ho'der or taxpayer who does not recognize in the call for an extra session of the Legislature a plain luisi ately. We therefore suggest that town and village, asking the Governor to issue his proclamation calling the Legislators together, to relieve the people of some of their burden

Last Night's Fire.

At about 11 o'clock last night the unwelcome cry of "Fire! Fire!" startled out people, and in a few minutes the streets were thronged by crowds hastening to the scene of conflagration-S. F. Hoole's barn, just back of the Reno Planing Mill. In a surprisingly short time the whole building was in flames and his residence was in great danger. The hand engine got a stream on in short order, and were soon followed by 48 and No. 1. The barn contained about ten tons of hay and many articles of storage. The loss is in the neighborhood of \$1,000. Mr. Hoole is entirehood of \$1,000. Mr. Hoole is entirely at a loss to account for the fire, but attributes it to tramps sleeping in the hay.

The Excitement of the Hour,

The skating fever is raging furiously. No wonder it looks dull around Ty. No wonder it looks dull around town—every body is at the scene of the latest and most delightful excitement. Morning, afternoon and even in the target of the latest and most delightful excitement. Morning, afternoon and even in the target of the latest and most delightful excitement. Humilton DH Henlin, Boston A B Brown, Portland ing, the fun goes on, and old and yound, married and single, pretty and ugly, are on hand to enjoy it. The gladsome times of days long past, are again re-enacted. The scenes of youth are again brought vividly before us, and the participants are happy in living them over again. This is the first time in five years that the mill dam has been frozen over, and the outlook is favorable for splendid skating during the While they are receiving dispatches, Winter. GOING IN DEBT.

Half the young men in the country, with many old enough to know better, would "go into business," that is, into debt, to-morrow if they could. Most poor men are so ignorant as to envy the merchant and manufacturer, whose life is an incessant struggle who, from month to month, barely evades that insolvency which sooner or later overtakes most men in business; so that it has been computed that but one in twenty of them Our neighbor of the Eureka Remblican is assured that the following appreciated:
